Lovely Homes Subdivision, Mohon, Talisay City, Cebu 6045 | kaelexx12@gmail.com | 09458924721  
Portfolio Link: <https://franciskylelorenzana.vercel.app/>

### SUMMARY

Full-stack developer with hands-on experience building production applications across remittance, HR, financial, and civic platforms. Integrated AI in platforms. Proficient in Next.js, React.js, Django, Spring Boot, TypeScript, and PostgreSQL, with a track record of shipping end-to-end features from database design to deployment while also supporting IT operations and cybersecurity for a financial services organization.

### PROFESSIONAL EXPERIENCE

**Bai Finance Group of Companies** January 2026 - Present  
**IT Intern → Project-Based Developer → Junior Full-Stack Developer / IT Support**

- **Bai - Remittance :** Built and now maintain a remittance web app (Next.js, Django) with KYC verification, real-time AUD-to-PHP exchange rates, document management, notifications, and an admin dashboard for secure end-to-end operations.
- **Bai Finance Website:** Built a full-stack marketing site (Next.js, Supabase) for an Australian financial services company, including loan calculators, an admin dashboard, and dynamic blog, news, and podcast sections.
- **Bai HR:** built an HR management system (Next.js 15, TypeScript, Prisma, PostgreSQL) covering employee records, document approval workflows, role-based access control, department hierarchy, and a full audit trail.
- **Tulong Tulfo:** Co-developed a civic platform connecting Overseas Filipino Workers with volunteer legal and employment support, featuring real-time chat, case tracking, and role-based dashboards.
- **Bai Finance Group of Companies Landing Page:** built an interactive corporate landing page with Svelte (JavaScript/TypeScript), featuring scroll-driven animations to unify the group's eight business divisions under one brand experience.
- **As Junior Full-Stack Developer / IT Support:** design responsive web interfaces and backend integrations, automate business workflows, troubleshoot hardware/software/network issues, and enforce cybersecurity measures across the organization's core digital infrastructure.

### SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java, C, C++, C#, Kotlin, SQL, HTML, CSS
- **Frameworks & Tools:** Next.js, React.js, Django, Spring Boot, Prisma ORM, Svelte, PostgreSQL, Supabase, Firebase, MySQL, XAMPP,
- **Others:** UI/UX Design, QA Testing, Workflow Automation, Cloud Foundations (AWS), AI Integrations

**EDUCATION** 2022 - 2026

**Bachelor of Information Technology - Cebu Institute of Technology - University**  
• Dean's Lister, College of Computer Studies — Last Semester, 2025
